EDUCATION

Bachelor of engineering in
Computer Science

Chitkara University

📅 Aug 2016 - Jun 2020

🎓 GPA: 9.31

Higher Secondary Education

Budha Dal Public School

📅 2015 - 2016

🎓 Percentage : 79%

SKILLS

* Java, Collections Framework, Data Structure, Rest APIs

* HTML5, CSS, JavaScript, React.Js, Angular

* VS Code, IntelliJ, Debugging

* Jira, Bitbucket, Jenkins, TeamCity For Deployment, Confluence

ACHIEVEMENTS

* Spot Award (2 Times) - For owning the Nighthawk Component for console, and bringing the test failures to 0.

* Global Recognition Award (2 Times) - This award is given quarterly to 10 teams globally based on the feature added to the product.

* Lee's Code - Won 1st prize in coding competition in college.

CORE COMPETENCIES

* Feature Planning/ Execution.

* Coding & Bug Fixing.

* Software Testing.

* Quality Adherence/ Efficient/ Optimised Code.

* Problem- solving Multi-tasking Mentoring.

ABOUT ME

- A Software Engineer at Temenos with 2.5+ years of experience as a Fullstack Developer working in React.js and Java as part of Temenos Fabric Console. A focused individual with technical understanding coupled with creativity, communication and problem-solving skills and confidence to take challenging assignments.
- A systematic, organized, hardworking and dedicated team player with an analytical bent of mind determined to be a part of a growth-oriented organization. Always ready to learn new tech stack.

WORK EXPERIENCE

Associate Software Development Engineer

Temenos

📅 Apr 2019 - Jul 2020

📍 Hyderabad, Telangana

Software Development Engineer

Temenos

📅 Jul 2020 - current

📍 Hyderabad, Telangana

PROJECTS

Fabric Console

- Fabric Console is an API designer and integrator, using which developers create, test and deploy APIs leveraging low code capabilities.
- Owned Integration Designer, Workflow Designer, Object Services Designer, Publish Module as part of the team and responsible for development, Automation and deployment.
- Handled the features single handedly, working with PM team to finalise requirements, designing, developing, and delivering the features with Its and E2e tests.
- Collaborated with identity management and middleware team to deliver cross-cutting features. As part of this reviewed code changes of my peers and owned E2e test plan for these features.
- Spear-headed efforts to implement nighthawk automation which ran more than 400 E2E tests. Was awarded Spot Award for bringing test failure count to 0.

Mobile Fabric Command Line Tool

Owner

- MFCLI (Fabric Command Line Interface) Tool is Integrated Tool for fabric APIs used by all Customers, and internal teams for CI/CD.
- Owned implementation of multiple commands with detailed documentation. Point of contact for Customers and internal teams for CI/CD integration.

Visual Mapper

- Enhanced the Verbs API to return the mapped fields of visual mapper for client side consumption.
- This API makes it easy for internal teams to generate Dynamic UI views from backend response for applications.

Expense Calculator

Owner

- Created a project from scratch which will help us track, list, filter and add expenses based on our expenses done. (React.js)
