EDUCATION

Bachelor of engineering in Computer Science
Chitkara University
- 🎓 Aug 2016 - Jun 2020
- 🎓 GPA: 9.31

Higher Secondary Education
Budha Dal Public School
- 📅 2015 - 2016

SKILLS

Programming Languages
* Java
* HTML5
* CSS
* JavaScript
* React.Js
* Data Structure
* Collections

CORE COMPETENCIES

* Feature Planning/ Execution.
* Coding & Bug Fixing.
* Software Testing.
* Quality Adherence/ Efficient/ Optimised Code.
* Problem- solving Multi-tasking Mentoring.

ABOUT ME

- A Software Engineer at Temenos with 2.5+ year of experience as a Fullstack Developer with a good experience in react.js and java and has worked on Temenos Fabric Console web app.
- A systematic, organized, hardworking and dedicated team player with an analytical bent of mind determined to be a part of a growth-oriented organization. Always ready to learn new tech stack.
- A focused individual with technical understanding coupled with creativity, communication, debugging and problem-solving skills and confidence to take challenging assignments.

WORK EXPERIENCE

Software Development Engineer
Temenos
- 📅 Jul 2020 - current   ⚲ Hyderabad, TELANGANA
- Worked on improvisation of Fabric App. Added more than 5 commands to fabric command line for APIs.
- Worked on Automation for every release. Owned Nighthawk Component, won spot award (2 times). Taken care of more than 100 E2E and brought the test failure count to 0.
- Delivered more than 10 features. Handled API with adding query params and reviewed code for bug fixes and features (More than 50 PR). Worked with other teams to deliver the feature.
- Taken multiple interviews (L1 Level) for the console team in Temenos. (Selected - 1)

Associate Software Development Engineer
Temenos
- 📅 Apr 2019 - Jul 2020   ⚲ Hyderabad, TELANGANA
- Working on a live project. Adding features to the project to make it an efficient Product to be used by banks. Writing optimised code and adding Unit Tests and E2E was part of my learning. (3 Features).

PROJECTS

Mobile Fabric Console
- Fabric Console is API integrator, in which can create your api through UI. In this worked on multiple tasks like Integration, Workflow, Object Services, Publish, App Context Menu and other modules.
- Handled the features single handed from signing the contract to delivering the feature with UTs, E2E Tests and testing.

Mobile Fabric Command Line Tool
Owner
- MFCLI is Integrated Tool for fabric APIs. I took the ownership of this and handled the tool with great responsibility.
- Single handed added multiple commands to this tool which are Fabric APIs use in the fabric console UI. Achieved from command line.

Visual Mapper And Custom XML Mapper
- Changed the verb Api to have a query param and was used in visualiser and created a JSON Structure which was used by viz. (Crud Operations)
